What Is Being Done?

Starting in April, the Michigan Department of Transportation will begin resurfacing 6 miles of the I-96 Business Loop (Cedar and Larch streets) in Lansing, along with sidewalk ramp upgrades.

To reduce the inconvenience to motorists, residents and business owners, the project will be broken into segments (excluding those areas where the City of Lansing has already completed sewer separation work):

Phase 1: Just south of Lake Lansing Road (near E. North Street) south to E. Michigan Avenue

Phase 2: Michigan Avenue to Mt. Hope Avenue

Phase 3: Mt. Hope Avenue to Cavanaugh Road

Phase 4: Cavanaugh Road to the I-96 interchange ramps

When Will This Be Done?

Work is expected to begin in early April, with all work completed by September.

Work south of Jolly Road will not start until after the Fourth of July holiday weekend.

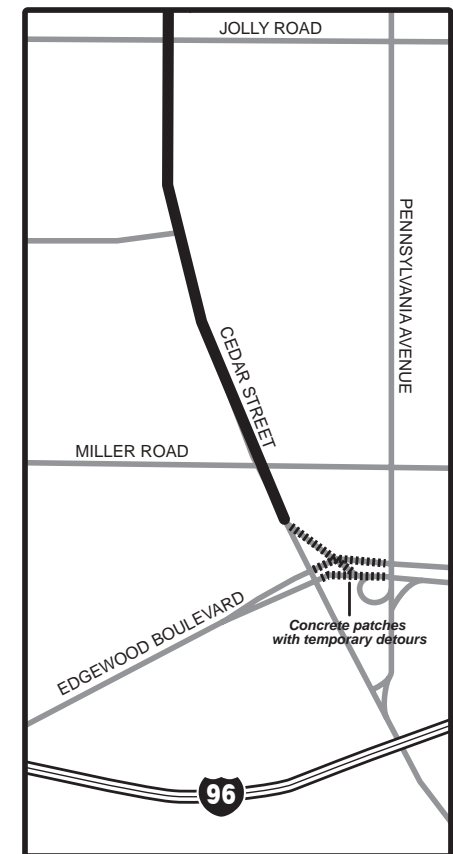

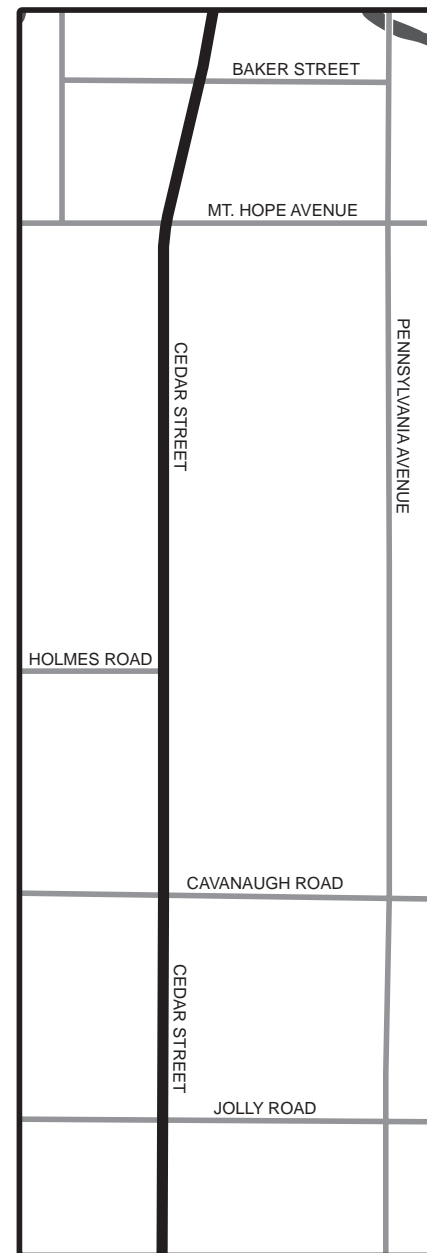

How Will Traffic Be Affected?

During construction, at least one lane will be maintained in each direction on Cedar or Larch streets at all times.

The majority of resurfacing work will take place at night from 9 p.m. to 6 a.m. the following morning. At the request of the City of Lansing, night work will not occur in the following residential areas: between Mt. Hope Road and Baker Street, or between the north I-496 ramps and Michigan Avenue.

Sidewalk ramp upgrades at major intersections, including Jolly Road, Mt. Hope Avenue, Holmes Road, and Miller Road, will take place on weekends starting 9 p.m. Friday until 8 p.m. Saturday, and 7 a.m.-8 p.m. Sunday.

There will be short-term ramp closures during work at the Cedar Street and I-96 ramps with a posted detour.

**Resurfacing and
sidewalk ramp upgrades**

**Concrete patches with
temporary detours**

Long-term Benefits

MDOT's 2011 road and bridge program supports the creation of jobs, growth of the economy, preservation of the environment and the safety and security of the transportation system.
